BREAKING THE CYCLE OF MENTAL INCARCERATION & SELF-IMPRISONMENT

Whoever knew standing on a street corner raising funds at a red light with a bucket would create a pivotal point where a visionary and her dream of helping others would evolve into a movement that is much bigger than one person, but still represents the visionary's original vision. Dr. Tiffany Love and her team are doing just that, while bringing a futuristic approach to outreach services, ministries, educational institutions, correctional facilities, workshops, and conferences that leave a positive impression in the lives of others.

Tiffany's mission of a myriad of non-profit organization programs are to positively change lives, while transforming others to be positive reinforcements in their home and community through providing life changing opportunities. A movement meeting people right where they are, while being a compass guide to get them through any situation of life.

In this press kit, you will learn more about Tiffany, and the ever-evolving program brands setting others free throughout the nation.

SPEAKING TOPICS

JEANS YOU WEAR, GENES YOU SHARE

What you are connected to is what you become. A person does not get to choose the family they are born into. However, they are in control of the choices and decisions they make.

A MADE UP BED, IS A MADE UP MIND

Life revolves around time. There are 86,400 seconds in a day. Where you are at this moment is a result of the choices and decisions you made in a moment.

WHAT LIVES IN YOUR MOUTH, LIVES IN YOUR LIFE

Words have the ability to heal or kill. There is life and death in the power of the tongue. 90% of where you are in life has a lot to do with what was spoken to you. Words take root. It is easy to become the words we speak.

YOU ARE THE "IT" IN YOUR SITUATION

Change begins with you. You cannot keep playing hide and seek with yourself, because you are always going to be "IT". If you want change and positive results simply become it.

BEYOND THE CROWN: PURPOSELY BEAUTIFUL

There is more to life than looks. You were made to do more than just exist. Think beyond vanity and use what you were created and destined to make a difference in the world. Your talents have no purpose or use in the grave.

DON' T "DIS" MY ABILITY

The human mind can do anything it tells itself. You were uniquely made to make your print in this world. What others think about you does not define you. You are capable of turning set backs to come-ups.

TESTIMONIALS OF SERVICE

Tiffany is a dynamic speaker. Her ability to reach and help change the lives of the inmates of San Quentin with her “Made Up Bed, Is a Made Up Mind” message is one that the entire prison quotes daily. She is definitely an example that one can change their circumstances by changing their mindset. We highly recommend and will continue to utilize her services.

SAN QUENTIN STATE PRISON

The City of Compton, California hosted Tiffany’s program Beauty Behind Bars for a community event to increase domestic violence, crime, and mental health issues that plague our city. She was able to reach the citizens of our community through her unique teaching style. Her message of What “Lives In Your Mouth, Lives In Your Life” sparked an energy needed to help create motivation and change.

CITY OF COMPTON MAYOR AJA BROWN

America is blessed to have a messenger making a great impact in the world. Not only did Tiffany encourage inmates, she made sure inmates had shower shoes, soap, feminine products, and Bibles. She explained to inmates they are the key to their situations, and how to change their situations, by changing the situation. We invite her to return as her message is life-changing.

POLLSMOOR PRISON OF SOUTH AFRICA

One of the most requested speakers at our prison. She raises a level of positivity, hope, and enthusiasm in our inmates. Tiffany has a way with people that influences them to change their life for better. She is a millennial with a heart for people. Her outreach services are incomparable. A wise young woman with impressive leadership skills.
